

INTERNAL AFFAIRS UNIT

CLOSED CASES – May 2023

- IA Case No: 23C-016
- Date Received: March 15, 2023
- Complainant: Kody Augeri
- Officer(s): Multiple Officers/None Identified

Summary: On March 15, 2023, The Office of Internal Affairs received a civilian complaint form from the complainant, who has put multiple complaints against harassment by family, friends, and random unknown people. He's been targeted by groups of people, being gang-stalked. He also stated Cops seem not to believe him. The last time he called, the officers brought him someone for therapy when I didn't need it.

After a review of the body-worn camera footage and incident reports, it was determined New Haven Police Officers who interacted with the complainant explained to him that there was no violation of the CT State Statute; therefore, no crime had been committed. These officers accurately documented their interactions with the complainant and attempted to provide him with mental health services. There were no violations of CT State Statute, New Haven Police General Orders, Policy, or Procedure identified. The allegations that officers did not properly investigate the complainant's complaint were dispelled by the information memorialized in the body-worn camera footage and the information documented in the reports.

- Disposition: **Unfounded**
- Date Closed: 4/1/2023

-
- IA Case No: 22C-077
 - Date Received: December 3, 2022
 - Complainant: Anais McMorris
 - Officer(s): Michael Limauro

Summary: On December 3, 2022, the Office of Internal Affairs received a Civilian Complaint Form from the complainant. Her main concern was that she should have been given a summons on the scene rather than being taken into custody.

Based on the facts and circumstances learned throughout this investigation which were discovered through a thorough review of the Incident/Investigation Report, Case Supplemental Report, statements taken by the officers involved in the investigation, and the video footage captured by the officer's body-worn cameras it was determined by this investigator that the arresting officer found there to be the existence of probable cause for the arrest of the complainant for the charges applied by Officer M. Limauro and that the complainant was found to be the dominant aggressor in the Domestic Violence incident investigated.

- Disposition: **Unfounded**
- Date Closed: 4/26/2023
