

Text of Complaint form D. Agosta vs. Abdussabur Campaign

Dear Ms. Heiner,

A review of a very small part of the campaign finance reports of Shafiq Abdussabur for Mayor 2023, shows very obviously that this campaign has accepted contributions that exceed the limit for matching funds.. It is not possible to determine how many contributions exceed that limit or by how much because contributions previously reported are no longer accounted for at all, in a clear violation of campaign finance laws.

The first reported contribution exceeds the limit for matching funds but it also includes a \$1000 contribution that was reported but is no longer accounted for. A random scan of contributions indicates that several thousand dollars in contributions, some of which also aggregate to exceed the Democracy Fund limits, are not accounted for.

This is, as you noted, irrelevant at this point but I will be filing a formal complaint with the SEEC when my disabilities allow me to get to a notary. This campaign should not be allowed to force the workload of going through six campaign finance reports to determine the extent of the violations on you or the Board and should be made to account for all of the funds it has accepted and all refunds made prior to receiving public funds.

I request that the Democracy Fund Board withhold funds from this campaign until it accounts for the funds it has raised
