Dear Ms. Kabel:

Attached is the City of New Haven's Consolidated Housing and Community Development Annual Action Plan for Fiscal Year 2018-2019. The Annual Consolidated Action Plan includes activities to be funded by the Department of Housing and Urban Development's (HUD) Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), Housing Opportunities for Persons with AIDS (HOPWA) and Emergency Solutions Grant (ESG) programs. The programs, projects and activities, presented as part of the plan, adhere to the guidelines, objectives and procedures set forth in the City's Citizen Participation Plan and its Five Year Consolidated Housing and Community Development Strategy and Plan for 2015 - 2019.

The FY 2018-2019 Annual Consolidated Action Plan's projects and activities promote neighborhood stability; provide affordable housing opportunity; support the success and advancement of residents; and continue to support and strengthen New Haven's community development efforts. The goals and guidelines set forth in the Annual Action Plan include the continued vision of providing a variety of affordable housing opportunities to meet articulated community needs. Programs have also been funded to ensure the availability of important public services and supportive programs for all residents, including health, personal advancement, nutrition and educational programs, with priority given to the support of youth, special needs populations and the homeless. Programs and projects will also provide improved public facilities, infrastructure and public spaces.

HUD funding is essential to the City in its efforts to provide affordable housing opportunity; improve the stock of decent, safe and supportive housing; and give families-in-need the means to move from emergency shelter to permanent housing through the provision of rental subsidies and utility assistance. HUD's funding also allows the City to continue to address gaps in critically needed services as identified in the Five Year Consolidated Housing and Community Development Strategy and Plan.

The City values your support in improving the livability of our neighborhoods and supporting the sustainability and improvement of our community.

Sincerely

Toni N. Harp
Mayor

Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The City of New Haven Consolidated Plan for Housing and Community Development:2015-2019 was developed in accordance with 24CFR Part 91 and is both a plan and a strategy for addressing housing and non-housing community development needs with federal consolidated plan funding received through the U.S. Department of Housing and Urban Development (HUD). The City receives four (4) grants on an annual entitlement basis through HUD. These grants are the Community Development Block Grant (CDBG), Emergency Solutions Grants (ESG), HOME Investment Partnerships (HOME) and Housing Opportunities for Persons with HIV/AIDS (HOPWA). The programs are designed to principally benefit very low, low -and moderate- income persons and individuals with special housing needs.

The overall goal of HUD's community planning and development programs is to develop viable urban communities by providing decent housing and a suitable living environment and expanding economic opportunities principally for low- and moderate-income persons. This goal is consistent with the City's primary goal and mission-- the comprehensive systematic revitalization of the City and its residents, neighborhood by neighborhood. This goal will be achieved through the support of new development and redevelopment, physical improvements, the provision of public facilities and services, and workforce and economic development.

The City's Consolidated Plan includes descriptions of the City's housing and community development needs; a strategy and plan which includes goals, priorities and activities to meet projected needs over a five-year period; and a one-year action plan which describes the City's projected use of funds for the upcoming program year covering the July 1 to June 30 time-period. The City prepares a new Action Plan every year to describe the activities to be funded with its CDBG, HOME, HOPWA and ESG appropriations.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

As part of its Consolidated Plan update process the City re-evaluated the policies, goals and objectives that had been driving its housing and community development programs and the allocation of its HUD resources.

The City's SEE initiative, which is an acronym for Safety, Education and Employment, drives the program development and annual funding processes. The SEE initiative continues to encourage safe and decent housing and the improvement and revitalization of neighborhoods; betterment of City residents through programs that enrich, educate and improve standards of living; promotion of healthier lifestyles and overall wellness; improvement to employability; and increased job creation.

The City's objectives for meeting its Consolidated Plan housing and community development needs over the upcoming strategy period, are included in the Strategic Plan - SP-25 Priority Needs section of the Five Year Housing and Community Development Consolidated Plan: 2015-2019 and attached as an Appendix to this Annual Action Plan.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Each year the City is required to report on the progress of its Consolidated Plan in its Consolidated Annual Performance and Evaluation Report (CAPER). The CAPER includes information on the City's CDBG, HOME, ESG and HOPWA expenditures, program beneficiaries, and accomplishments. The report also includes a narrative requirement that summarizes the City's programs and activities; housing projects completed and underway; accomplishments with its federal resources; and a self-evaluation of its program performance. The City posts its annual CAPER documents on the City website for public copying and review and provides, and keeps on file, printed copies of each document in the Main Library and in the Office of Management and Budget in City Hall.

Over the past Five Year Consolidated Plan Strategy Period (2010 through 2014) the City utilized its federal entitlement allocations to provide a variety of programs and services to benefit persons and households of low- and moderate income and other special needs populations. With the resources provided, the City successfully met the majority of its Measurable Goals and strived to meet the needs as identified in the Strategic Plan portion of its Consolidated Plan 2010-2014. It is anticipated that the City will once again meet its goals and address the needs identified during the current five-year strategy period. The City is currently completing its 3rd program year under the 2015-2019 Consolidated Plan. The CAPER for the 2017-2018 Annual Action Plan will be prepared in the fall of 2018 and will be made available for public review and comment.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

The City prides itself in encouraging participation of its residents, non-profit housing and community development providers, and other community stakeholders in the development of plans and strategies to improve the City and each of its distinct neighborhoods. Throughout the year, the City seeks input

and feedback on community needs, strategies, and policies for future action and the development of its annual strategy to meet identified needs through the Annual Action Plan funding process. An appendix to this document contains information regarding the Citizen Participation process and outreach efforts conducted during the development of this Plan.

To begin the Consolidated Plan update process the City reviewed and evaluated its former 2010-2014 Consolidated Plan to determine what needs were still unmet; what new needs have arisen; which programs and policies were effective; and what areas needed to be improved. This review and re-evaluation was conducted by the administration and City departments that administer the various housing and non-housing community development programs, as well as a general canvas of interested non-profits and community stakeholders. Each entity relied on past experience, knowledge of community needs and conditions; and outreach with constituents, colleagues and other administering agencies. LCI Neighborhood Specialists also provided a link between the administration and community residents and stakeholders. LCI Neighborhood specialists focus on unique areas of the City and their outreach and education of community residents is important.

Focus group outreach is used to receive valuable need data, policy and program suggestions and input on implementation of the HUD entitlement programs. Housing, special needs populations, social services, economic development, and community facility improvement needs were the main areas of focus. Outreach to adjacent communities and the region as a whole occurred through involvement with the South Central Region Council of Governments; community roundtable discussions sponsored by HUD and the State of CT; and the continuum of care network of providers known as Greater New Haven CAN (Coordinated Access Network). In the fall of 2014, prior to the development of the Five Year Consolidated Plan update, the City undertook a homelessness assessment that included an analysis of conditions, programs and facilities to address homeless needs and recommendations for change. This included consultations with providers and homeless and formerly homeless individuals to ascertain need. The assessment will be revisited as part of the next Consolidated Plan update.

Each year, as part of the development of the Annual Action Plan, the City holds an open application process which is initiated by an open letter to citizens and stakeholders requesting applications for funding and participation in the process. Informational sessions are held that outline the goals and objectives of the City's Five Year Consolidated Plan; regulatory requirements of the funding sources; federal regulations regarding program implementation; and past performance and expenditures. An overview of the formal application is provided and technical assistance is available to interested agencies and organizations throughout the process. After submission, applications are reviewed for completeness and eligibility prior to consideration by the City administration for funding. As part of the City's formal budget process, applicants and members of the community are given the opportunity to go before the Board of Alders to discuss their proposals and/or to comment on the plan and its processes. A schedule of the Citizen Participation Process for the current budget and annual action plan is attached as part of the appendices.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

There were no comments received on the plan during the public comment period that necessitated a change in priorities, objectives or strategies. The Citizen Participation attachment to this plan contains the schedule of the plan development process, copies of notices, and other pertinent data related to community outreach and public comment.

6. Summary of comments or views not accepted and the reasons for not accepting them

There were no comments received on the plan during the public comment period that necessitated a change in priorities, objectives or strategies. Nor were there any comments received that were not considered.

7. Summary

Through a collaborative process of outreach to housing and social service providers, participation in the development of local and regional plans and studies, and a network of community input and involvement, the City attempts to understand and accurately depict community conditions and needs. The development of goals and strategies to guide the Consolidated Planning process over the 5-year strategy period resulted from the City's community outreach and participation endeavors. Each year the City makes every effort to develop programs and budget its resources in a manner that addresses these identified community needs.

AP-10 Consultation – 91.100, 91.200(b), 91.215(I)

1. Introduction

The City of New Haven utilizes a variety of formats to encourage participation in the development and implementation of its Consolidated Plan for Housing and Community Development programs. The main methods of outreach and collaboration, to ensure its strategy and the implementation of its plan meet established goals and objectives, include formal public hearings; round-table discussions of topical needs and programs to serve them; municipal outreach through its neighborhood-based planning efforts; staff participation in regional, state and focus area plans and implementation techniques; open communication between the administration and its constituents; and the provision of guidance and request for feedback to and from area non-profits and service providers. A description of the Citizen Participation Process for the development of this plan is included in the Citizen Participation attachment.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))

The City of New Haven works with non-profit organizations, local community development organizations, state and local housing and service providers, and the local housing authority to plan for and effectively utilize its resources to achieve its housing and community development goals and meet identified needs. Through both formal and informal collaborations, the City networks and implements programs to directly meet the needs of its residents as well as regional housing and service needs. City staff are actively involved on committees, as part of consortiums and through administrative liaisons with housing and community service providers, to stay informed of housing and community development needs and the strategies and programs in place or planned for to meet identified needs. City involvement also helps to improve lines of communication between all parties participating in the process of improving the City’s housing and other community development programs.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City of New Haven has an active and effective Continuum of Care consortium now known as – The Greater New Haven Coordinated Access Network (CAN). Members of the CAN lead regional efforts to eliminate chronic homelessness, homelessness for veterans, and homelessness for youth and families. Member agencies coordinate advocacy and homelessness prevention efforts with the provision of housing, employment opportunity, and support services to address homelessness. The CAN membership includes civic, religious, government, business, and not-for-profit leaders, in addition to other stakeholders. The City of New Haven, in its efforts to eliminate Chronic Homelessness and provide

supports to families and individuals faced with or at-risk of homelessness, collaborates with the CAN agencies and organizations to develop programs, strategies and solutions to address homelessness and its causes. Through program support, financial backing and strategic long-range planning the City works with member agencies to develop a coordinated and cohesive approach to assist those in need. City staff attend CAN meetings and representatives from numerous CAN agencies participate in round table discussions, needs analysis and plan development for the City's Consolidated Housing and Community Development Plan and Strategy. As needed, representatives from member agencies also assist the City in peer review of projects and applications for funding.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Representatives from numerous Coordinated Access Network (CAN) agencies participate in round table discussions, needs analysis, and plan development for the City's Five Year and Annual Consolidated Housing and Community Development Plans and Strategies. As needed, representatives from member agencies also assist the City in peer review of projects and applications for funding. Through active involvement and collaboration, these efforts assist in determining how ESG and HOPWA funding is allocated; have developed consistent and relevant performance standards and outcome measurements; and have developed policies and procedures for the funding and administration of homelessness assistance programs. The City, and all local participants in the Coordinated Access Network (CAN), utilize the same HMIS software which simplifies data sharing, avoids duplication of services and has allowed for the development of a tracking system to meet local needs.

AP-12 Participation – 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

Citizen participation and consultation with local officials has been a priority during each phase of the development of the Consolidated Plan. The Final Plan is the result of articulated needs of the community and encapsulates the strategies, goals and priorities of the administration, local governing officials and the community.

On October 16, 2017, the Mayor of New Haven issued an open letter to the residents of the City to apply for funds through the Consolidated Plan process and encourage participation in the development of the plan. On November 1, 2017, a public meeting was held to explain the process; offer the Citizen Participation Plan for review; discuss needs, eligibility requirements and past performance; and to answer any questions. Packets containing current and past spending patterns, information about the application process, and the Consolidated Plan Goals, Objectives and Funding Priorities from the Consolidated Plan: 2015-2019 were distributed. The deadline for applications for funding was November 29, 2017. Technical assistance was provided to interested applicants as needed throughout October and November.

Coordination with City residents is enhanced by utilizing the City's ten (10) community-based police substations and their management teams as liaisons between the neighborhoods and the City's administration. To provide a link between the administration and the community, each neighborhood is assigned a Neighborhood Specialist from LCI. Also, each substation has a management team comprised of neighborhood residents, business owners and other interested individuals or group representatives who have shown an interest in providing leadership to their community. These management teams are the focus of initial administrative contacts with neighborhood groups and residents. During the Consolidated Plan development process, the City took advantage of this community-based police substation structure. Neighborhood specialists from LCI, as the liaisons between the individual substations and the City administration, provided additional community outreach and information distribution.

As part of the plan development process and the approval of the annual plan, the City held a series of public meetings and workshops to receive comments and testimony from members of the New Haven community. Additional opportunities for participation were incorporated into Aldermanic public hearings and workshops.

Introduction

The following tables and narratives summarize the potential resources that may be available to the City during the upcoming Strategy Period and Annual Action Plan Year. The City currently receives four (4) federal entitlement grants through HUD.

On an annual basis the City utilizes its federal entitlement grant allocations in combination with any anticipated program income and unexpended resources from prior years to implement its housing and community development strategy and accomplish its goals and program objectives.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The City makes every effort to leverage its federal resources with private, state and local funding to meet the needs identified in its Consolidated Plan. With leveraged funds to complement its Consolidated Plan resources, the City works to provide the maximum assistance with the resources it has available. Leveraging is key to stretching its federal entitlement resources to achieve the maximum program benefit. As part of each application for Consolidated Plan funding, potential grant recipients are asked to list other sources of funds it will use to leverage their request.

It is the City's policy to leverage the maximum private investment with the minimum public expenditures. In assisting affordable housing projects with public funds, the City seeks to maximize the number of units and households assisted. Use of Federal and State resources often require local matching funds to create a viable project. While municipal dollar resources are limited due to local budget needs and allocations, the City tries to provide alternative investments such as land, site development, technical assistance or public improvements to bring down costs.

Because of economic pressures on the existing tax base, the City rarely approves fee waivers, PILOTS (Payment In Lieu of Taxes) or tax abatement agreements and when it does, does so only for projects which have unusual merit.

The City uses a mix of federal, state, private and local capital and general fund resources to implement its Consolidated Plan strategy. It has received federal CDBG-DR funding through the State of Connecticut Department of Housing; federal Lead Hazard Reduction funding; Federal Ryan White funding; federal Department of Justice grant assistance and numerous State programs to support its local housing and community development efforts.

The City works with state and regional organizations, individual non-profit organizations and local community development corporations to streamline and more effectively utilize funds to achieve housing and community development goals. As part of this process, the City actively seeks other private and public financing in support of community development projects either locally or through individual agencies as a means to increase the numbers of units created and persons served. The City of New Haven uses General Funds, Capital Project Funds, private financing and State of Connecticut Program Funds to match and leverage federal HOME program resources. The City in some cases provides land at reduced cost or tax incentives to non-profit developers. As of 2017, based upon its match contributions for Federal Fiscal Year 2016, the City has met its HOME match requirements in excess of \$23 million.

The City uses General Fund resources to support its homeless initiatives. These provide a match to the City's ESG funding. The City budgets approximately \$1.4 million a year in General Fund resources in support of various homeless assistance initiatives.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

As appropriate and available, the City may provide land acquired through community development action or In Rem to non-profit developers to support housing and community development efforts. The Livable City Initiative (LCI) and the Economic Development Administration (EDA) work with non-profit developers to identify resources to support project implementation including publicly-owned land and property as appropriate.

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Funds are allocated as part of an open application process. Each application is reviewed for completeness and consistency with the goals and priorities set forth in the City of New Haven's Five Year Consolidated Plan for Housing and Community Development: 2015-2019. The biggest obstacle to addressing underserved needs is the lack of available resources and funding. Requests for funding far exceed the availability of funding.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City of New Haven spends the majority of its Consolidated Plan funding in its low- and moderate-income target areas which include those census tracts and neighborhoods where more than 51% of the population is comprised of persons of low- or moderate income (defined by HUD as less than 80% of the Area Median Income) or for projects and programs that provide direct benefit to low and moderate income populations.

There are several specific neighborhoods in the City where neighborhood revitalization and code enforcement efforts are targeted. These include the Hill, Newhallville, Dixwell, Fair Haven, Dwight and West Rock neighborhoods. These neighborhoods have both high numbers of low and moderate-income households as well as substandard, vacant and blighted structures and properties.

Table 8 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The projects and activities funded by the City as described in this Action Plan benefit low and moderate income households and individuals either as direct benefit to income eligible program participants or as area wide benefits to neighborhoods or areas with more than 51% of the population being of low and moderate income. Generally, the CDBG, HOME and ESG programs serve the entire City of New Haven in accordance with the program requirements of each grant. The City targets the majority of its resources in neighborhoods that have more than 51% of its population having very low, low and moderate incomes.

Discussion

The City distributes funding on a project merit and beneficiary basis. There are no specific Target Areas

designated within the City. All neighborhoods and census tracts with over 51% low and moderate-income population are eligible for CDBG funds. The map included as an attachment to this plan depicts the areas of low and moderate income concentration within the City where community development activities are generally funded. There are several distinct neighborhoods within the City where anti-blight and neighborhood revitalization activities are concentrated in an effort to achieve neighborhood stability. These neighborhoods are the Hill, Newhallville, Dixwell, Fair Haven, Dwight and West Rock neighborhoods.

The HOPWA program serves the New Haven EMSA which covers 27 municipalities in the region. The HOPWA funding is allocated as part of the annual Consolidated Plan application process, along with CDBG, HOME and ESG requests. Advertisements announcing public meetings and the availability of funds were placed in local and regional publications in order to make funds available throughout the New Haven Eligible Metropolitan Statistical Area (EMSA). Completed applications are reviewed by an assembled group of non-conflicted community stakeholders and individuals working within the AIDS service delivery system in the New Haven region. Applications are reviewed, scored and ranked, and funding recommendations are made to the Board of Aldermen through referral to the joint HR/CD Committee. Applicants are given the opportunity to appear before the HR/CD Aldermanic Committee to provide verbal testimonies to support their programs. The Aldermanic Committee makes recommendations to the Full Board for final approval.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

During the 2018-2019 Action Plan Year the City of New Haven will use its CDBG and HOME funds to support and develop affordable housing activities serving low- and moderate income persons and families and/or persons with special or supportive housing needs. HOPWA and ESG funds are not being used to create new affordable housing units over the upcoming program year. HOPWA and ESG funds are being used for the provision of rental assistance and supportive services.

With the use of CDBG, HOME and a combination of both funding sources, it is anticipated that **XX** units of affordable housing will be rehabilitated or created. Consistent with the strategy set forth in the Five Year Consolidated Plan, the majority of the units will be created through the rehabilitation of existing structures with a focus on creating affordable homeownership opportunities. In addition, LCI will also provide an Elderly/Disabled Emergency Rehabilitation Loan Program and an Energy Efficiency Rehabilitation Program. The City will also continue to provide a Downpayment and Closing Cost Assistance Program with HOME fund balances from prior years. Because HOME funds are distributed on a project by project basis throughout the program year, it is difficult to enumerate the exact number of units to be created at the start of the program year. Actual accomplishments with HOME funding will be reported in the City’s Annual Performance Report.

The tables that follow provide the annual goals for the number of households to be supported and the method of support. The City does not provide a rental assistance program with its CDBG or HOME funds. HOPWA funding is used to provide short-term rent, mortgage and utility assistance (STRMU); permanent housing placement (security deposits); tenant based rental assistance (TBRA) and supportive services. ESG funds provide not only emergency shelter but also prevention and rapid re-housing rental assistance.

The projects and programs to be assisted over the program year are described in more detail on the individual project sheets.

AP-60 Public Housing – 91.220(h)

Introduction

On behalf of the City Administration, LCI collaborates with the Housing Authority of New Haven on several of its major housing redevelopment projects in support of their efforts to provide housing choice through the provision of new rental and homeownership opportunities.

Actions planned during the next year to address the needs to public housing

The City supports efforts of the housing authority through the provision of direct financial assistance in and around housing authority projects, property support and the promotion of collaborative efforts. Capital improvements to Housing Authority properties are funded for the most part through HUD's operating and capital funds and through Moving to Work- enabled flexible funds. Based on a formula, the Housing Authority receives annual funding to address physical and management needs that have been identified in the Authority's Moving to Work plan. The planning process involves a partnership with residents, staff and local City officials to identify and implement the physical and management improvements needed throughout the Authority. Activities included in the Housing Authority's annual Moving to Work Plan are developed through a collaborative process which includes resident involvement. These activities are further coordinated with the CDBG, HOME, and ESG programs to provide maximum benefit without duplication. To provide housing choice, the City collaborates on the creation of mixed income, mixed use developments in support of the Housing Authority's initiatives.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

Resident input and involvement remains at the heart of efforts to improve the quality of life within public housing developments in New Haven. Residents participate in most aspects of planning and priority setting. All residents are encouraged to participate in the tenant councils at various projects. In addition, New Haven's public housing residents are represented by a City-wide Resident Advisory Board. The Resident Advisory Board gathers tenant leaders of HANH developments from across the City to discuss important issues facing residents. Its members participate in a variety of committees that work directly with HANH staff members to formulate housing authority policy. The role of Resident Advisory Board in the planning process of HANH has become especially critical since 2000, when HANH became part of the Moving to Work Demonstration Program (MTW). An MTW agency cannot function effectively without the input and support of its residents, so HANH relies on its Resident Advisory Board and its Tenant Residence Councils to actively contribute to the process.

Senior Services: HANH contracts with several area behavioral health providers for on-site case management services. Additionally, HANH partners with the City's Health Department for the delivery of on-site health promotion activities.

Community Based Policing: As part of a City-wide effort to reduce crime and build positive

neighborhood relationships, there are several police substations located within or close to several of the housing authority's large family developments. In addition to programs and projects designed to foster safety, officers assigned to these substations develop community activities for children and adults. The Police Athletic program also provides opportunities for recreation, tutoring, socialization, and motivation. Through the associations fostered between officers and residents, adults and youths experience healthy relationships with positive roles models. New Haven police officers reside in several developments through the Officer in Residence Program.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

The Housing Authority of New Haven is not designated as "troubled" by HUD.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The City of New Haven is committed to providing housing and support services that directly benefit the homeless, near homeless and special needs populations as evidenced by the programs and projects it supports. With the use of its Consolidated Plan funding under the CDBG, HOME, ESG and HOPWA programs, and the infusion of general and capital fund resources, the City provides for and supports the homeless and special needs populations within its borders. As available, the City also seeks other resources through foundations, competitive grant processes, the State and other special funding sources directed to populations most in need.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Outreach to the homeless is provided through programs implemented through the City's Community Service Administration and by the various agencies and organizations that comprise the local continuum network of providers known as Greater New Haven Coordinated Access Network (CAN). Through their collaborative efforts, an assessment of local needs and strategies to provide housing and supportive services has been developed. Unsheltered homeless are serviced by local food pantries and soup kitchens; receive assistance and referrals when presenting themselves for emergency medical care; and receive outreach services and referrals to supports from street outreach personnel. GNH CAN member agencies and the City all utilize a common Homelessness Management Information System (HMIS) that minimizes duplication of services and helps to provide a more efficient and effective delivery of services and supports to those in need. New Haven has established a Homelessness Advisory Committee to ascertain need and develop a systematic approach to providing a continuum of housing supports and improving the lives of the homeless.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City has several emergency shelters within its borders that address the emergency housing needs of the homeless. Shelters are available for single men, women, women and their children, veterans and youth. Non-profit agencies within the City, as part of the Greater New Haven Coordinated Access Network, provide support services and have developed transitional housing with support to meet the needs of the homeless and at-risk and move individuals more effectively from homeless to housed.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that

individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Local homeless housing and service providers offer counseling, referral, programs and supportive services to the individuals and families they serve to provide each with the resources they need to transition to permanent housing and independent living. Through collaboration with other provider agencies and local housing and social service providers, programs and supports have been created to help overcome the effects of substance abuse; provide job skill and life skill development; provide family support services such as child care, health care, budgeting and household management skills; assist with basic needs; and promote economic advancement. Combined, these supports assist the homeless or near homeless in developing the skills and resources required to find permanent and suitable housing.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The City and local non-profit housing and service providers implement several programs targeted to address homelessness prevention. The City of New Haven has been proactive in working with institutions and non-profit agencies and organizations in addressing the issues of homelessness and the needs of the homeless through the local Continuum of Care process as well through the Mayor's Homeless Advisory Commission and programs offered through the Community Services Administration and collaborative agencies. Outreach and prevention are both provided through numerous programs and include, foreclosure prevention; the provision of rapid re-housing assistance, short term financial assistance, payment in arrears and assistance with utilities and rent to avoid eviction; and community re-entry programming. The City expends its CDBG, ESG and HOWPA resources in support of various homelessness prevention programs.

The City does not own facilities or directly operate programs serving homeless persons, and therefore, does not discharge clients/persons from institutional settings to settings that would result in homelessness for "institutionalized persons." The City of New Haven does contract with a variety of private, non-profit organizations that provide services to homeless individuals and families including the provision of financial support to emergency shelter facilities. The City's Community Services Administration has incorporated a statement of compliance into its agreement letters with funding recipients for homelessness services asking for adherence with the State of Connecticut's Discharge Policy that prohibits discharging clients/persons from institutional settings to homelessness.

As another measure, the City has created a Prison Re-Entry Initiative with a mission to support New

Haven residents returning to the community after incarceration. The program supports the individual as well as their family and the communities to which they return. The Initiative seeks to coordinate and expand services and opportunities for formerly incarcerated persons and their families to help them with employment, education, housing, health care, and family issues. In addition, the City has also funded several programs with CDBG funding whose intent is to support individuals with re-entry into the community after incarceration.

New Haven participates in the regional ROOF project which is an acronym for Real Options, Overcoming Foreclosure (ROOF). The project began in New Haven in 2007 as a result of a study on the extent and impact that foreclosing properties had on the City and its neighborhoods and has since become a regional program. The ROOF Project aims to keep homeowners and renters in their homes where possible; to reduce financial and personal costs to households when remaining in their homes is no longer possible; and to reduce the negative impact of multiple foreclosures on neighborhoods. ROOF is a partnership of regional representatives, community organizations, faith-based groups and public and private resources. The ROOF Program is designed to educate borrowers on how to best manage their loans and to avoid foreclosure; counsel those who are going through the foreclosure process; and seek supplemental funding sources.

Discussion

The City utilizes its CDBG, ESG and HOPWA funds to assist both the homeless at-risk of homelessness. During the 2018-2019 Program Year the following projects are being supported:

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

As a means to provide decent, safe and affordable housing opportunity for all of its residents, the City strives to implement programs and seek resources with which barriers within its control can be overcome. On an annual basis the City uses its Consolidated Plan resources to rehabilitate housing, construct new housing, and provide housing and supportive services to residents in need. The City also seeks other funding to leverage local dollars and entitlement grant funding. Specific projects and programs to be funded during the 2018-2019 program year and their benefit are included earlier in this action plan. The narrative below describes the programs and policy efforts the City supports to overcome housing barriers.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

To address the identified barriers to affordable housing within its control, the City has developed several strategies as the focus for the promotion of affordable housing and housing choice. They include:

Regionalization of Affordable Housing: As there is a need to spread affordable housing opportunities across the region, City staff remain involved with the South Central CT Regional Council of Government's planning efforts to promote regionalism in transportation, economic development and housing. SCCRCOG prepared a Regional Housing Market Assessment, an implementation strategy and plan to meet identified needs. There has been limited action in the implementation of the strategy and provision of affordable housing outside the confines of the City. Implementation and active participation by all sectors of the region is vital to overcoming the regional disparity in the provision of affordable housing. The City continues its involvement with the regional collaboration in an effort to meet affordable and supportive housing needs without assuming the full financial and locational burden.

Neighborhood Development and Site Selection: High costs involved in site acquisition, demolition, and remediation have made it difficult to identify suitable sites for affordable housing. The City will continue to promote its general priorities for housing development aimed at the existing stock and will continue its efforts to develop mixed-income infill residential development to deconcentrate poverty and provide housing choice. The City has successfully completed several large-scale multi-family mixed-income developments with a focus on locations close to transportation and employment linkages. Continuation of these efforts will create sustainable neighborhoods of mixed income and promote stability.

Negative Effects of Blighting Properties: The City uses a range of options to address blighting influences including negotiated acquisition; enforcement of the local anti-blight ordinance; a rental licensing program; and as needed, redevelopment planning. The City also targets its HOME and CDBG investments in support of other public and private investments. The City will continue its efforts in

addressing blight through neighborhood anti-blight and code enforcement sweeps and targeting financial resources to provide visible change.

Building Stock Constraints: The City strives to maintain and preserve the historic fabric of its neighborhoods however, rehabilitation cost is substantial. With its older buildings having high incidence of lead-based paint and asbestos, coupled with the cost of renovation to the Secretary of the Interior's standards for historic preservation (if required) and creating energy efficient units in structures more than sixty years old, rehabilitation is often difficult without significant financial commitment. The City is committed to assisting homeowners and non-profit housing providers in rehabilitating existing housing stock. Financial resources and technical assistance is provided in an attempt to assist each rehabilitation in the most prudent and cost effective manner.

Reductions in Funding: Funding reductions on the State and Federal level and declining municipal resources significantly impair the City's ability to provide affordable housing. The City will continue to seek additional resources with which to provide affordable housing, supportive housing and the programs and services necessary to improve the standard of living of its low and moderate income population and the neighborhoods within which they live.

Discussion:

See narratives above.

AP-85 Other Actions – 91.220(k)

Introduction:

During the upcoming Action Year, the City of New Haven will implement various activities to address obstacles to meeting underserved needs, foster and maintain affordable housing, remove barriers to affordable housing, evaluate and reduce lead-based paint hazards, develop institutional structures, enhance coordination between the City and private enterprises and social service agencies, and foster public housing improvements and resident initiatives as described in the Strategic Plan portion of its Consolidated Plan: 2015-2019. As part of these actions, the City will support other entities in the implementation of programs and projects by providing financial resources as available or providing technical assistance and supporting other applications to state, federal and other funding sources for projects which further the City's housing and community development objectives.

Actions planned to address obstacles to meeting underserved needs

The greatest obstacle to meeting underserved needs in the community is the lack of financial resources with which to develop housing opportunity, finance all needed revitalization activities and provide all of the supportive and social service needs articulated by area housing and service providers and the community that they serve. To help overcome this obstacle, the City will seek grant funding from State and federal resources, leverage resources to the fullest extent possible, and improve coordination between provider agencies to avoid duplication of services.

Actions planned to foster and maintain affordable housing

The City, through its Livable City Initiative (LCI) and through the participation of local non-profit and for-profit organizations, works to address its housing and community development needs, remove impediments to housing choice and provide opportunities for economic achievement and advancement. By providing or supporting a variety of homeownership assistance programs; by providing a variety of programs that create and expand the supply of safe decent and affordable housing; by encouraging neighborhood revitalization and improvement activities; and by supporting empowerment and economic advancement of its residents the City is taking positive steps toward expanding housing and personal advancement opportunities within its borders.

Actions planned to reduce lead-based paint hazards

The City of New Haven's Health Department plays an active role in addressing childhood lead poisoning and the issue of lead-based paint. In support of these efforts, the City has received six Lead-Based Paint Hazard Control Grant awards from HUD. These funds have and continue to be used to address lead abatement in housing units occupied by children with lead poisoning and units being renovated for occupancy by low- and moderate-income families. The City's experience with the HUD Lead Hazard Control Program to date has been very successful and the City will seek additional funds to continue the initiative. The City was awarded Lead Hazard Control Funds under the 2012 SuperNOFA and another

allocation of funds under the 2015 SuperNOFA was awarded.

To abide with the spirit and intent of the concepts contained in the Residential Lead-Based Paint Hazard Reduction Act of 1992, otherwise known as Title X (ten), New Haven Health Department Lead Poisoning Inspectors provide lead and asbestos inspection services to homeowners and non-profit developers seeking to perform housing rehabilitation utilizing CDBG and/or HOME funding. The federal funds are provided through the Livable City Initiative (LCI). A thorough and detailed evaluation for the presence of lead and asbestos is produced and provided to the property owner. A specific and comprehensive lead abatement plan is also created by health department Lead Inspectors. The inspection reports and abatement plans are incorporated into the general rehab plan for the structure. If the homeowner is planning on a limited scope of work, discussions are held between all concerned parties until a compromise is reached which provides for lead abatements where necessary. If additional City funding is not accessible the homeowner is encouraged to seek private funding.

The City allocates CDBG funding in support of lead-based paint testing efforts to ensure that every unit rehabilitated with federal funds is tested, remediated or abated, and cleared as required. The City also supports the lead-based paint testing efforts of the Health Department with local General Fund support for outreach, education, equipment and personnel. In addition, medical providers located within the City provide lead testing of children with laboratory support furnished by the State. If children test positive for high lead levels, referrals are sent to the New Haven Health Department for follow up. Homes are also inspected for the presence of lead upon resident request.

The LCI implements housing policy by providing grants and loans to aid in the rehabilitation of housing. All HUD-funded housing assistance programs provided through the City require lead-paint inspections as a condition for receiving funding assistance for housing rehabilitation. Housing loan program staff and the lead inspectors work with owners and developers to ensure that all properties meet or exceed all local, state and federal health and safety requirements.

Over the Action Plan Year the City will continue to implement its comprehensive Lead-Based Paint Hazard Control Program as part of its efforts to significantly reduce lead-based paint hazards in all housing. As described, all housing assistance programs implemented by the City require full and complete lead-paint and asbestos inspections and proper abatement of all hazards as a condition for program participation and the receipt of financial assistance.

Actions planned to reduce the number of poverty-level families

The City of New Haven is considered a 'distressed municipality' by the State of Connecticut, in part due to very low per capita and household income levels. In order to decrease the incidence and effects of poverty, the City makes every effort to take full advantage of the programs and resources available to assist its residents in poverty. Support of and coordination among a variety of programs and services is the foundation of the City's strategy. To address poverty, the City supports economic development programs including job skill development, job training, job placement, business retention and business

expansion programs; social and support services including preventative health care programs, life skills training and child care; adult education; language and literacy training; supportive housing; and affordable housing rehabilitation and construction programs. All of these programs and services can be utilized to educate, support and empower individuals and their families living in poverty. Through economic development, education, support and empowerment, the City and its service providers are working to move impoverished individuals to a higher financial level and improved self-support. The City utilizes a combination of federal, state and local resources to address poverty and the needs of those living in poverty.

While housing alone neither creates nor resolves poverty, the availability of quality affordable housing provides opportunities to stabilize neighborhoods. The City supports collaborative efforts by non-profits; collaborates with the local continuum of care network of providers known as the Greater New Haven Coordinated Access Network (CAN); remains involved in regional affordable housing efforts; and fosters connections between special needs housing and the agencies that provide social services. The success of affordable housing programs can only occur through a combination of City resources along with State and Federal offerings. Through collaborative efforts amongst service and resource providers, the duplication of services can be reduced allowing resources to be expended efficiently and effectively to serve the maximum number of recipients.

Actions planned to develop institutional structure

The continuing fiscal crisis on the Federal, State, and local level has created further reductions or changes in staff assignments. Furthermore, complex regulations, new reporting requirements and the demand for greater transparency within programs instituted or required by State and Federal agencies are not accompanied by adequate training. Service delivery cannot be enhanced without funding to train and educate the individuals that provide services. In many instances service delivery has been impacted to some extent by staff change and reductions in funding.

Actions planned to enhance coordination between public and private housing and social service agencies

There are a number of community-based, not-for-profit developers, for-profit developers and managers of affordable housing. The City encourages these entities to acquire vacant lots and abandoned properties for the use as redevelopment opportunity. The value of the properties provided at below market value can be used to leverage private financing. Many of these non-profits are part of the continuum of care network of providers or have formed associations to exchange ideas, reduce the duplication of services and share resource information. City staff participates in these networks both as a provider of resources and assistance and to ascertain the needs of the community.

Another area to be addressed in the inter-relationships among housing and social services providers is the creation of linked or coordinated programs. To this end, the capacity of client based not-for-profit groups must be enhanced to develop and manage housing. Religious organizations are encouraged to

support housing development by working in collaboration with existing developers and social service agencies, leveraging the strengths of each participant. The City also encourages the creation of faith based and start-up organizations by providing technical assistance. In addition, ongoing programs within City departments shall be coordinated to complement or enhance social service provision, economic development resources and housing opportunities.

as follows:

No other forms of investment of HOME funds, beyond those included in the HOME regulations, are anticipated during the Action Year.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

The City may use either the Resale or Recapture provision to ensure compliance with HOME regulations, depending on the program that the City has identified. Due to the character length restrictions of the online IDIS program, the Resale Recapture provisions are described in more detail in the narrative included as an attachment.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

At this time, the City of New Haven will not be using the presumption of affordability method.

The City of New Haven may elect to preserve the affordability of housing that was previously assisted with HOME funds by covering the cost to acquire such housing through a purchase option, right of first refusal, or other preemptive right before its foreclosure, or at the foreclosure sale; financing rehabilitation costs and carrying costs, as needed; and providing financial assistance to a new eligible homebuyer in accordance with 92.254(a).

Under this scenario, the new investment of HOME funding will trigger an amendment to the original project affordability period and, at no time can the additional HOME investment exceed the maximum per unit subsidy.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

During the Action Plan Year, the City does not intend to use HOME funds to refinance existing debt secured by multi-family housing that is being rehabilitated with HOME funds.

**Emergency Solutions Grant (ESG)
Reference 91.220(l)(4)**

1. Include written standards for providing ESG assistance (may include as attachment)

In 2016, the City of New Haven convened the Emergency Solutions Grants Citizen Review Board to review applications for potential funding and to establish funding priorities. The ESG Citizen Review Board works in the development of ESG program priorities and the allocation of funds. Funding is based on a competitive application process, which includes the review, scoring and ranking of applications. Standards and program structure vary between applicant agencies, with each program serving specifically targeted populations (such as individuals & families), and type of assistance provided to the client (rapid re-housing, prevention & shelter). The City of New Haven allows agencies to apply for all eligible costs permissible under the program and strives to identify and fund any service gaps within the City. The City awards funding for the following ESG activities: Rapid Re-housing, Homeless Prevention, and Shelter.

The City of New Haven works with area agencies, the Greater New Haven Continuum of Care, the Connecticut Coalition to End Homelessness and the Connecticut Balance of State (CoC) to develop, establish and implement a coordinated access system. Rapid Re-housing, Prevention and Shelter services funded under the ESG program are vital components to the overall success of the coordinated access system. These services provide shelter to those who are at-risk or homeless, prevention assistance through rental arrearage, and direct financial assistance to rapidly re-house individuals and families in need. The coordinated access system has standards and program structures able to change and evolve in order to support the overall community wide goal of eliminating homelessness, reducing length of stays at emergency shelters and prevention of at-risk homeless individuals or families. Data describing community-wide outcome measures will be generated from the Homeless Management Information System (HMIS) and will be provided to the ESG Citizen Review Board during the review and ranking process and will be used to target Request for Funding Proposal development.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The City has not established centralized or coordinated assessment system.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

As in previous years, requests for Emergency Solutions Grant funds were incorporated into the City's Consolidated Plan application process, along with CDBG, HOME, and HOPWA requests. The procedures are outlined in detail in Appendix A, the Citizen Participation Summary. Following public notification, informational meetings and public hearings, requests were recommended for inclusion in the City's Homeless Programs, to be administered by the Community Services Administration.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

Every year, the City of New Haven recruits individuals to the ESG Citizens Participation Board charged with providing guidance and evaluation throughout the ESG funding cycle. The Board meets three times throughout the funding year. Board members will provide input on the ESG application prior to the release of the Request for Funding Proposals. Members will review, score and rank applications for ESG funding, provide funding recommendations to the Board of Alderman based on the rank and score of the application and will review year end outcomes and expenditure data to better inform future funding cycle priorities.

A broad range of community stakeholders have been invited to participate on the Board, including student groups addressing homelessness from Yale University, the Greater New Haven United Way, formerly homeless individuals, the Statewide and local Continuum of Care, an HMIS expert, a local mental health provider, and City administration personnel responsible for the oversight of police, parks and fire departments. Board members will be interviewed prior to Board participation to review Board member responsibilities, expected time commitment, and knowledge of and interest in addressing local homeless issues. Recruitment efforts will continue to broaden participation on the board with outreach to local homelessness activists, Yale-New Haven Hospital, faith-based community leaders, and previously and currently homeless individuals.

5. Describe performance standards for evaluating ESG.

The City requires each recipient of Consolidated Plan funds to identify measurable outcomes relative to their particular program or project. This information forms the basis for the City's monitoring and performance measurement requirements and is reported upon in its annual performance report submitted to HUD known as the CAPER (Consolidated Annual Performance and Evaluation Report) in e-Cart format.

In addition to the annual performance indicators collected for all projects as part of the annual CAPER report, the City has worked with the local Continuum of Care membership and will continue to work with the Citizen Review Board for ESG to develop initial Performance Standards based on Results Based Accountability models for Homelessness Prevention and Re-Housing Activities funded with Emergency Solutions Grants (ESG) funding. These standards further depict a means to evaluate the effectiveness or success of the programs implemented as they relate to helping homeless and/or at-risk of homelessness and the clients' ability to ultimately become self-sufficient.

Agencies submit quarterly HMIS ESG data as well as year-end HMIS data. Data collected in HMIS focus on the following (but not limited to): client demographics, type of assistance provided (financial assistance, housing relocation and/or stabilization services), residence prior to entry, exit

destination, sources of income & benefits (includes non-cash benefits), household make-up, length of participation in the program, disabling condition, etc. Emphasis on specific data sets are discussed and determined from previous fiscal year-end outcomes and monitored accordingly in the new year. Focus this year is on length of participation in the program, household make-up and access to income and/or benefits. Tracking these data sets will ensure agencies and their clients are on the track to becoming self-sufficient.

Each ESG funded program may be slightly different, the City requires each subrecipient to define its standards for client selection, rejection and program termination to ensure standards and policies are met and fair housing practices are followed and documented. The criteria for selection, rejection termination, tracking, evaluation, re-evaluation and other client contract items will be developed collectively with service providers to ensure those working with the homeless on a day-to-day basis can best identify the needs and protocol for success.

In June of 2017, the City of New Haven contracted with the Connecticut Coalition to End Homelessness (CCEH) to align New Haven with all Connecticut Grantees.

SINCE 1958

October 11, 2017

AN OPEN LETTER TO THE CITIZENS OF NEW HAVEN:

The City of New Haven will initiate the application process for its 2018-2019 Consolidated Plan for Housing and Community Development Programs - Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), Housing Opportunities for Persons with AIDS (HOPWA) and Emergency Solutions Grant (ESG) - by hosting a public meeting on:

*Wednesday, November 1, 2017
165 Church Street, 2nd Floor
10:30-12:00, Meeting Rooms 1&2*

It is a **requirement** that a senior-level representative of interested 501(c)3 agencies, **not funded** in the 2017-2018 program year, **must attend** the scheduled meeting. Agencies funded during program year 2017-2018 are also welcome to attend the meeting. During the public meeting, applications will be distributed and City staff will provide an application overview; discuss regulatory requirements, highlight past performance; and discuss future goals, objectives and funding priorities. The priorities for program year 2018-2019 are: evidence-based positive youth development activities; job training/employment opportunities; public safety and neighborhood revitalization with particular focus on anti-blight activities; homelessness prevention and re-housing; and the support of construction-ready affordable housing preservation and neighborhood commercial and economic development projects. Eligible applications will be required to demonstrate an ability to leverage additional funding from other sources, demonstrate concrete deliverables within the funding year and form meaningful partnerships with other area agencies. Funds that are awarded for public improvements and housing development must be spent within two years, otherwise the appropriation will be subject to reprogramming. City staff will also be available at the meeting to discuss administrative requirements for performance, accountability, transparency and outcomes.

The legislative intent of these federally funded programs is to support activities that benefit extremely low, low and moderate income persons and households (between 0% and 80% of the area median income) as part of an overall community development effort. The City of New Haven seeks to ensure that the federal resources provided are utilized in a logical, directed fashion, in combination with other resources to accomplish the goals, objectives and priorities created through its citizen participation process.

The application includes a list of eligible activities, City-specific objectives and identified funding priorities that are consistent with federal eligibility guidelines and the City's Five Year Consolidated Plan. The goals, objectives and priorities included in the application will guide the City's funding allocations for program year 2018-2019.

Consolidated Planning Objectives

The City's broad-based objectives for meeting its housing and community development needs are:

OBJECTIVE: To preserve and improve the existing housing stock.

OBJECTIVE: To improve access to a range of choices of safe, supportive and affordable housing opportunities for all New Haven citizens where they become part of diverse neighborhood environments.

OBJECTIVE: To develop additional critically needed flexible housing options principally benefiting very low, low- and moderate- and middle-income persons and families including transitional, supportive and permanent housing.

OBJECTIVE: To stabilize neighborhoods through the enforcement of property maintenance, code enforcement, and the removal of blight.

OBJECTIVE: To stabilize neighborhoods in response to the decline in the existing housing market and prevent housing foreclosures by offering support services, education and technical assistance to existing homeowners and first time homebuyers.

OBJECTIVE: To provide a continuum of care system of supportive housing opportunities that provide safe shelter while homeless children, youth, families, and individuals work their way toward self-sufficiency.

OBJECTIVE: To provide supportive housing and supportive services for persons with special needs (e.g. persons with HIV/AIDS, the elderly, persons with disabilities, persons with mental health illnesses and persons with other chronic illnesses).

OBJECTIVE: To further develop the City's winter warming center inventory to prevent exposure to the elements during the winter months.

OBJECTIVE: To support healthy aging in place for low-income seniors in new housing developments.

OBJECTIVE: To develop facilities which will offer a transitional living environment defined as 45 to 60 days for individuals who are exiting shelters and are ready and prepared for self-sufficiency, independence and re-housing.

OBJECTIVE: To improve access to homeownership for low-, moderate-, and middle- income families.

OBJECTIVE: To eliminate childhood lead poisoning within the City of New Haven.

OBJECTIVE: To support health-conscious, community-friendly neighborhood revitalization activities in targeted neighborhoods.

OBJECTIVE: To increase the number of housing units accessible to persons with disabilities.

OBJECTIVE: To promote mixed use opportunities with retail and shopping closer to housing and transit oriented developments.

OBJECTIVE: To create a suitable and health-conscious living environment by encouraging streetscape enhancements, pedestrian links, and building and infrastructure improvements.

OBJECTIVE: To provide equitable and high quality services based upon data and technology which will promote safe, healthy and vibrant neighborhoods.

OBJECTIVE: To stabilize neighborhoods in response to the decline of the existing housing market and prevent housing foreclosures by offering support services, education and technical assistance to existing homeowners and first time homebuyers.

OBJECTIVE: To empower individuals (including children and youth) and families and strengthen neighborhoods through the provision of public service facilities and policies.

OBJECTIVE: To promote community health, wellness, education, employment and public safety through the provision of physical improvements and public service programming.

OBJECTIVE: To provide for the expansion of livable wage jobs and economic opportunity as the foundation for neighborhood revitalization

OBJECTIVE: To create affordable and accessible childcare facilities for working families.

OBJECTIVE: To enhance the technical skill set of local residents through workforce training and career development opportunities and to encourage the creation of jobs that match the skill set of these residents.

NEW HAVEN CITY PLAN COMMISSION ADVISORY REPORT

RE: **ORDER OF THE BOARD OF ALDERS** Approving the City of New Haven Fiscal Year 2018-2019 Consolidated Housing and Community Development Annual Action Plan and the Goals and Objectives for the Five Year Consolidated Plan 2015-2019. (Office of the Mayor)

REPORT: 1541-05

ADVICE: Approval

BACKGROUND

The Mayor has submitted to the BOA for their review and approval the Annual Consolidated Action Plan, which includes proposed activities to be funded by the Department of Housing and Urban Development (HUD) Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), Housing Opportunities for Persons with AIDS (HOPWA) and Emergency Solutions Grants (ESG). This program year the City anticipates overall funding of \$6,204,208. Funding remains subject to final federal approval, however the forecast funding level is consistent with FY18's final allocation of \$6,059,460. Following review of applications for FY19 (program year 44) relative to program guidance, the City is proposing a budget of \$2,562,283 for personnel costs and \$3,641,925 for non-personnel and other program delivery.

PLANNING CONSIDERATIONS

The overall goal of HUD's community planning and development programs is to develop viable urban communities by providing decent housing, suitable living environment and expanding services principally to low and moderate-income persons. The City's primary goal and mission when utilizing its' Consolidated Plan resources is to create a complete systematic revitalization of eligible neighborhoods in the City. This goal will be achieved through the creation of affordable housing opportunity, the support of new development and redevelopment, physical improvements, the provision of public facilities and services and economic development. The Commission believes the plan promotes neighborhood stability, programs for individuals to help achieve a better quality of life and support New Haven's long-range community development efforts and notes the following City programs for their specific relationship to the City's Vision 2025 Plan of Development: Property Management, Acquisition, Comprehensive Plan, Housing Code Enforcement and Main Streets. In addition to longstanding support for community partners and homeless service providers, the budget also includes new support for the Family Justice Center Initiative.

ADVICE

The Commission recommends approval of the FY19 Consolidated Plan.

HOME Investment Partnership Program
Recapture or Resale

**HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(I)(2)**

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

The City may use either the Resale or Recapture provision to ensure compliance with HOME regulations, depending on the particular program or neighborhood goal that the City has identified. These provisions are described in more detail below.

HOME Recapture: The City of New Haven has chosen to use Recapture in the following instances:

- A. When direct financial assistance is used to reduce the purchase price to below market value for the homebuyer or to otherwise subsidize the homebuyer to make purchase affordable as with the down-payment and closing cost assistance program, also known as “direct subsidy”.
- B. When direct financial assistance is provided to homeowner occupants for rehabilitation costs allowable under the energy efficiency rehabilitation program and elderly emergency repair program. The HOME regulations do not require either resale or recapture, however, the City of New Haven has elected to require recapture of its HOME funds in accordance with CFR Section 92.254(5)(ii)(A).
- C. When financial assistance is used as a direct subsidy to the homebuyer in the form of HOME Downpayment and Closing Cost assistance together with additional energy efficiency rehabilitation program assistance.

Under the recapture option, the City will recapture the entire amount of the HOME investment not previously forgiven under the terms of the written agreement from the borrower provided there are net proceeds sufficient to repay the City loan. Under the recapture provisions, HOME affordability restrictions will be removed from the property and the property may be sold without sales restrictions (i.e. at market rate and/or to a non-low-income purchaser). Net proceeds (*defined in 24 CFR 92.254(a)(5)(ii)(A)(3)*) are equal to the sales price, minus non-HOME loan repayments, closing costs, and approved permanent capital improvements. Permanent capital improvements may include hot water heater, furnace, roof, kitchen remodel, bathroom remodel and/or any other permanent improvements excluding cosmetic improvements such as painting, carpet etc. made to the property during the period of ownership. If net proceeds are insufficient to pay off the City’s principal and any interest that may have accrued, the balance of unpaid principal and interest shall be forgiven. All HOME repayments from homebuyers/homeowners will be used for HOME-eligible purposes. The City loan will also become immediately due and payable if the property ceases to be used by the borrower as their primary residence, in accordance with 24 CFR Section 92.254.

The down-payment and closing cost assistance program carries a 5 year affordability period with its HOME investment of up to \$15,000.00 which is forgiven pro-rata over the 5 years. If at any

time the homebuyer resells, refinances (except to obtain a lower interest rate for the remaining principal balance) or transfers title any amount not forgiven shall become immediately due and payable. However, if the homebuyer fails to occupy the property as their primary residence or is in non-compliance under 92.503(b) the entire HOME assistance shall be recaptured. The rehabilitation program (Energy Efficiency Upgrades) carries a 10 year affordability period due to the HOME investment of up to \$30,000.00 which is 100% due and payable during the initial 5 years and forgiven 20% a year for the final 5 years. Like the Down Payment and Closing Cost Program if at any time the homeowner resells, refinances (except to obtain a lower interest rate for the remaining principal balance) or transfers title any amount not forgiven shall become immediately due and payable. However, if the homebuyer fails to occupy the property as their primary residence or is in non-compliance under 92.503(b) the entire HOME assistance shall be recaptured.

Recapture details are outlined in the written agreement and recorded as a lien on the land records along with the mortgage and note. Funds recaptured shall be used to assist other first time buyers and low-income homeowners and deemed Program Income.

Market Conditions for Resale: New Haven is a mature city with a development pattern that has evolved over four centuries. While the central core is well-framed by a grid of nine squares, the balance of the city is an organic collection of, among other features, residential neighborhoods, commercial districts, open spaces, institutions and industrial districts. These qualities are often noted for their diversity and livability, thereby creating a unique and celebrated “sense of place”. In general terms, the city’s housing and land use patterns are denser and more integrated than other municipalities in Connecticut. In addition, mixed-use districts, either by design or by heritage, continue to be among the city’s more prominent land use features. New Haven is a small city in terms of area (18.9 square miles), but is a densely populated urban community of roughly 130,000 people.

New Haven has begun attracting new residents over the past years. This trend has been due in part to revitalized neighborhoods, new residential development in Downtown New Haven and other neighborhoods and the growing appeal of urban living, as well as outside market forces at work in the region. New Haven is projected to continue growing as New Haven is the economic and cultural center of southern Connecticut. In recent years, its business mix has evolved from a heavy focus on industrial manufacturing to a more diverse economy based on educational services, healthcare, bioscience, information technology and advanced manufacturing. The City is particularly encouraged as these areas have continued to grow, despite increasing competition. This stability is partly the result of the City’s strong anchor institutions, Yale University and Yale New Haven Hospital, which continue to attract outside investment.

The market in New Haven has stabilized which allows for a steady rental rates, which have not increased, and home sale prices which also have not changed. Coupled with low interest rates, this makes New Havens housing market viable. New Haven has a very high rental to homeownership ratio with a very low vacancy rate. Small-scale new construction of single and two family homeownership units is the current demand. It is expected that these units would be

a suitable addition to the local housing market based upon the lack of availability of newly constructed housing units as most housing stock in New Haven is over 100 years old. The availability of targeted financing programs is especially important for rapid sale of these units.

HOME Resale: The City shall impose the resale option to ensure the preservation of affordability of the HOME-assisted unit in the event a developer (non-profit/CHDO's/for-profit) is provided HOME-assistance to cover the cost of producing the affordable unit above the fair market value by either underwriting new construction or rehabilitation, This type of assistance is known as "development subsidy", In such instances the homebuyer must sell to another Low-Income Homebuyer (as defined by HUD), with the new home being affordable to the new buyer. The new homebuyer may not pay more than 38 percent of gross income for Principal, Interest, Taxes and Insurance (PITI). In certain circumstances, the City may permit the new homebuyer to assume the City loan and affordability restrictions, i.e., the City will not require the full repayment of the initial HOME subsidy.

- A. Under the resale option, 24 CFR 92.254(a)(5)(i), if the HOME unit does not continue to be the principal residence of the qualified low-income family that purchased the unit for the duration of the period of affordability, the unit must be made available for subsequent purchase only to a reasonable range of low-income buyers defined by the City of New Haven as 60%-80% AMI unless assisted by the Section 8 mortgage program through the New Haven Housing Authority of the City of New Haven. In order to ensure that the owner receives a fair return on investment and the unit is affordable to the range of low-income buyers, the City may provide down payment and closing cost assistance to the subsequent homebuyer.
- B. The original HOME-assisted Homebuyer shall obtain a Fair rate of return on investment as required under the HOME regulations and the City of New Haven defines the fair rate of return as the fair market value based on the most probable price (in terms of money) which a property should bring in a competitive and open market under all conditions requisite to a fair sale price based on three (3) comparable properties that have sold in the last six (6) months to a year that are similar in configuration, age and location, including the homeowner's investment as defined as the down payment at original purchase, plus any permanent capital improvements (i.e. hot water heater, furnace, roof, kitchen remodel, bathroom remodel and/or any other permanent improvements excluding cosmetic improvements (i.e. painting, carpet etc.) made by the owner to the structure since the purchase.
- C. Affordability period: The affordability period will be based on the total amount of HOME funds used to assist each unit in the property in accordance with the ranges shown below:
 - a. Five (5) years where the per unit amount of the HOME Loan provided is less than \$15,000;
 - b. Ten (10) years where the per unit amount of the HOME Loan provided is \$15,000 to \$40,000;
 - c. Fifteen (15) years where the per unit amount of the HOME Loan provided is greater than \$40,000;
 - d. Twenty (20) years with respect to new construction;

however, in the event the HOME Loan was used in connection with a mortgage insured by HUD under Chapter II, Parts 200 - 299 of Title 24, Code of Federal regulations, the Recapture provisions shall be applicable for a period of time equivalent to the term of the HUD-insured mortgage.

Resale restrictions. In accord with 24 CFR 92.254, the Project structure shall be made available for subsequent purchase only to a low-income family or very low income family that shall utilize the property as a principal residence; and

- a) In the event the subsequent purchase price is in excess of the original Owner's investment, including any capital improvement (hereafter "investment"), such Owner shall receive at the sale his investment, together with a fair return on investment-(a fair return shall consist of the excess sale price above closing expenses and investment, divided by the affordability period, the result multiplied by the number of years of occupancy by the Owner); and
- b) Ensure that the Project structure shall remain affordable to a reasonable range of low-income homebuyers pursuant to deed restrictions, covenants running with the land, or other similar mechanism approved by the City, in accord with the requirement stated and set forth under Article 6, Section 6.26, herein, at or before the Closing of this Agreement, and pursuant to 24 CFR 92.254 (a) (5)((i)(A) and (B). In conformity with and to carry forth the requirement stated in 24 CFR 92.501, in the event the affordable housing, or discrete portion thereof, assisted with the federal HUD HOME funds invested in the Project ceases to qualify as affordable housing before the period of affordability expires such funds shall be repaid to the extent and proportional to such part or portion ceasing to so qualify as affordable housing.

Resale Restriction details and requirements are outlined in the written agreement for each project prior to project commencement and the written agreement is recorded on the land records. A deed restriction is placed on the transfer deed as a covenant running with the land which enforces the affordability period as determined by the HOME loan investment as noted in the following Home Deed Restriction.

HOME DEED RESTRICTIONS TO BE INSERTED IN WARRANTY DEED:

The Grantee shall also comply with the terms, conditions, restrictions and covenants as set forth in the Home Investment Partnerships Program (HOME) Agreement executed simultaneously herewith by and between the City of New Haven and the Grantee(s) herein. A copy of which is on file in the City of New Haven, Livable City Initiative, 165 Church Street, New Haven, Connecticut.

The HOME Agreement shall remain in effect during the applicable period for affordability under 24 CFR Part 92 Subpart F Sections 92.252 and 92.254. Said affordability period shall commence on the date this deed is executed and shall terminate fifteen (15) years from the date hereof as to the provisions under the HOME Agreement.

Under the HOME Agreement, any subsequent purchaser must qualify as a low-income household (defined by HUD) pursuant to 24 CFR Part 92.

The Grantee, his/her heirs, successors and assigns and any subsequent purchaser or successor-in-interest shall comply with the terms of the HOME Program and the regulations promulgated thereunder as set forth in 24 CFR Part 92.

If a rental unit exists, the maximum rent limitation for the affordable housing rental unit(s) is the lesser of:

- 1) The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR Part 888.111; or
- 2) A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for the number of bedrooms in the unit.

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2016, 2017, 2018 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

Compliance with Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.

Lead-Based Paint -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, Subparts A, B, J, K and R.
